 - Figma
 - Framer
 - Lovable Developer

SELECTED PROJECTS

AI Fiesta – By Dhruv Rathee

Feb 2026 – Present

- Designed seamless multi-AI user experiences integrating models like ChatGPT, Gemini, Claude, and Grok into a unified platform.
- Crafted intuitive dashboards, chat interfaces, and AI workflow systems focused on accessibility, clarity, and high engagement.
- Built scalable UI systems and modern interaction patterns optimized for fast-growing AI-powered digital products.

TagMango – Content Creator Monetisation Platform

Feb 2026 – Present

- Designed creator-focused experiences for workshops, courses, memberships, and community-driven learning ecosystems.
- Improved user journeys across onboarding, content discovery, payments, and creator monetisation workflows.
- Contributed to scalable and conversion-focused interfaces for one of India’s leading creator economy platforms.

Shikkha & GradX – MBBS Counselling Platform

Feb 2026 – Present

- Designed student-centric experiences simplifying NEET counselling, MBBS admissions, and career guidance workflows.
- Structured information-heavy interfaces for counselling processes, college selection, and admission support systems.
- Built clean and accessible UI patterns focused on trust, clarity, and seamless navigation for students and parents.

AssetEye — Enterprise Web Platform (Denmark)

Sep 2025 – Feb 2026

- Architected end-to-end UX for enterprise workflows including onboarding, dashboards, and data-intensive screens serving 500+ users
- Restructured information hierarchy for complex tables, filters, and multi-step navigation, improving task success rate by 41%
- Established scalable UI patterns using reusable components and responsive layouts, achieving 95% cross-device consistency

Nuros AI — Artificial Intelligence Product

Sep 2025 – Feb 2026

- Crafted intuitive AI interaction model, reducing learning curve by 60% compared to competitor products
- Developed high-fidelity prototypes validated through 15+ user testing sessions, achieving 88% first-time task completion
- Built scalable design patterns integrated with company-wide system used across 4 product teams

Posture Pal — Health Tracking Application

May 2025 – Sep 2025

- Led complete mobile app design from research through launch, achieving 10,000+ downloads in first 3 months
- Implemented gamification strategy, increasing daily active users by 67% and average session time by 3.2 minutes
- Ensured accessible design meeting WCAG 2.1 AA standards, expanding user base to include individuals with disabilities

Framix — Enterprise Design System

Jun 2025 – Sep 2025

- Constructed comprehensive design system with 80+ components, design tokens, and documentation serving 15+ team members
- Eliminated 85% of design inconsistencies and reduced development time by 40% through reusable component library
- Facilitated usability testing with designers and engineers, iterating based on feedback to achieve 94% adoption rate

PurpleMerit — Corporate Website (Framer)

May 2025 – Sep 2025

- Designed and launched modern marketing website with strategic hierarchy and visual spacing
- Built fully responsive pages in Framer with seamless deployment-ready handoff
